

Arthrospira platensis, also known as spirulina, is a blue-green algae like AFA (Aphanizomenon flos aquae). It provides a wide variety of micronutrients and macronutrients and contains specific active compounds such as phycocyanin, which constitutes the blue pigment of blue-green algae.

Cyactiv® is a patented extract of spirulina standardized in phycocyanin content. Phycocyanin acts in synergy with other compounds present in the extract, in order to stimulate the migration of your adult stem cells.

CHARACTERISTICS AND BENEFITS

Spirulina is cultivated and harvested in sunny regions of the world such as the United States, Greece, Spain, Japan and India (Karkos et al., 2011). It is well known for its nutritional richness in macro and micronutrients. It is composed of more than 60 % of proteins and 14% of carbohydrates. It is a good source of polyunsaturated fatty acids, essential amino acids, and micronutrients such as Iron, Calcium, Magnesium, Phosphorus and Selenium. It is used in nutritional supplementation all over the world.

Spirulina is a good source of phenolic compounds and beta carotenes, which represent two categories of antioxidants. It supports the immune system (Finamore et al., 2017) and helps maintain vitality.

After more than 2 decades of experience in aquatic agriculture and harvesting, **Cerule®** has become an expert in the production of exclusive and unique extracts. Recently, **Cerule** has extended its production capacities to transform spirulina in order to isolate phycocyanin and other active compounds present in spirulina.

Cyactiv is a spirulina-based food supplement produced by a unique filtration process that enables the concentration of phycocyanin. Phycocyanin stimulates the migration of your adult stem cells.

The extraction process to produce **Cyactiv** is exclusively based on water and does not include any solvent or synthetic compound. The concentration of phycocyanin is > 30%. **Cyactiv** is on average 4 times more concentrated in phycocyanin than standard spirulina. Drying process is carried out at low temperature to preserve all the nutritional properties of **Cyactiv**.

The filtration process and drying steps are patented and exclusive to Cerule, resulting from many years of research and development. This expertise enables the company to control the process from the raw material to the finished product, setting up high quality control standards at all steps of the process.

The benefits of consuming **Cyactiv** have been assessed in three different clinical studies, which have been published in peer-reviewed journal (Jensen et al., 2016a ; Jensen et al., 2016b ; Jensen et al., 2015).

INGREDIENTS AND LABELS

Cyactiv® is a proprietary formula proven to reduce systemic inflammation that has been associated with a myriad of health issues. Balancing whole-body inflammation assists the homing of stem cells to affected tissues.*

Clinical research shows Cyactiv helps balance multiple inflammation pathways, supporting a fully active lifestyle.*

- Supports a healthy inflammation response*
- Supports stem cell function*
- Helps increase activities of daily living*

Caution: Use only as directed. Do not take this product if you are pregnant or nursing. Consult a healthcare professional before use if you have existing medical conditions. Not intended for children. Store in a cool dry place.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

HELPS BALANCE AND CALM WHOLE-BODY INFLAMMATION*

60 CAPSULES
DIETARY SUPPLEMENT

Suggested Use:
Take 2 capsules daily with food.

Supplement Facts	
Serving Size: 2 capsules	
Servings per container: 30	
Amount per serving	
Cyactiv® Spirulina Extract (Phycocyanin >30%)	1000mg†
† Daily value not established.	

Other ingredients: Hypromellose (Vegetable Capsule), Organic Rice Concentrate.

Product does not contain: Dairy, wheat, gluten, peanuts, soy or corn allergens. No artificial flavors or colors.

100% vegetarian and non-GMO.

US Patent 9,370,537

Product of the USA
Item Code: CYA101-USEN
Rev: OCT20v1

SUGGESTED USAGE

Recommended daily dose for an adult: 2 capsules, 1 to 2 times per day, with a glass of water, during meals. Do not refrigerate.

ADDITIONAL INFORMATION

Does not contain dairy or gluten. Does not contain artificial aromas, preservatives or coloring agents. Capsule exclusively composed of ingredients of vegetable origin. Suitable for vegetarian consumers.

Cerule has no knowledge of any contraindications with regards to the consumption of **Cyactiv** during / while pregnancy or breastfeeding. However, as a precaution, we advise that you consult your physician.

Cerule has no knowledge of any contraindications or interactions between **Cyactiv** and other medication. However, if you are taking prescription drugs or if your health requires medical attention, we advise that consult your physician.

FAQ'S

What are the ingredients of Cyactiv?

Cyactiv is a patented extract of spirulina standardized for phycocyanin in order to support the migration of your adult stem cells.

Can Cyactiv be used with Cerule supplements (PlasmaFlo® and StemEnhance® ULTRA) or with other supplements?

Yes, all **Cerule** products can be consumed together and have been created to act in synergy for an optimal wellness. **Cerule** has no knowledge of any contraindications or interactions between **Cyactiv** and any other supplements.
